

# Reflection

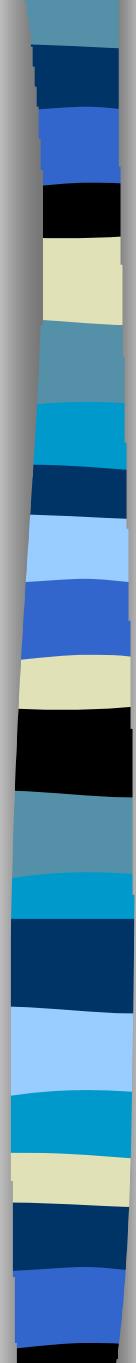

Episode II

The return of the Java virtual machine

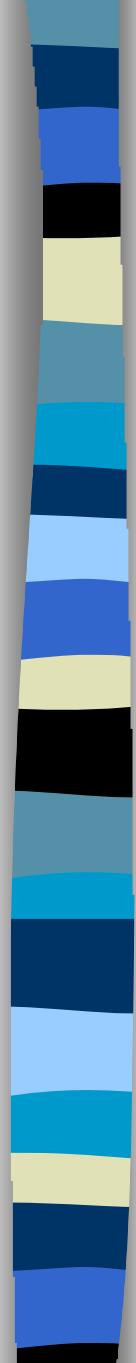

# Summary

- Remainder
  - Structural / Behavioural
  - Comparison between Smalltalk and Java
- Remainder
  - Pierre's exercises
- More
  - Proxy
  - HotSwap
  - Blocks
  - ...

# Structural vs. Behavioural

- Structural reflection
  - Reification of the program being executed
  - Reification of the program abstract data types
- Behavioural reflection
  - Reification of the language semantics (its interpreter)
  - Reification of the data used to execute the program

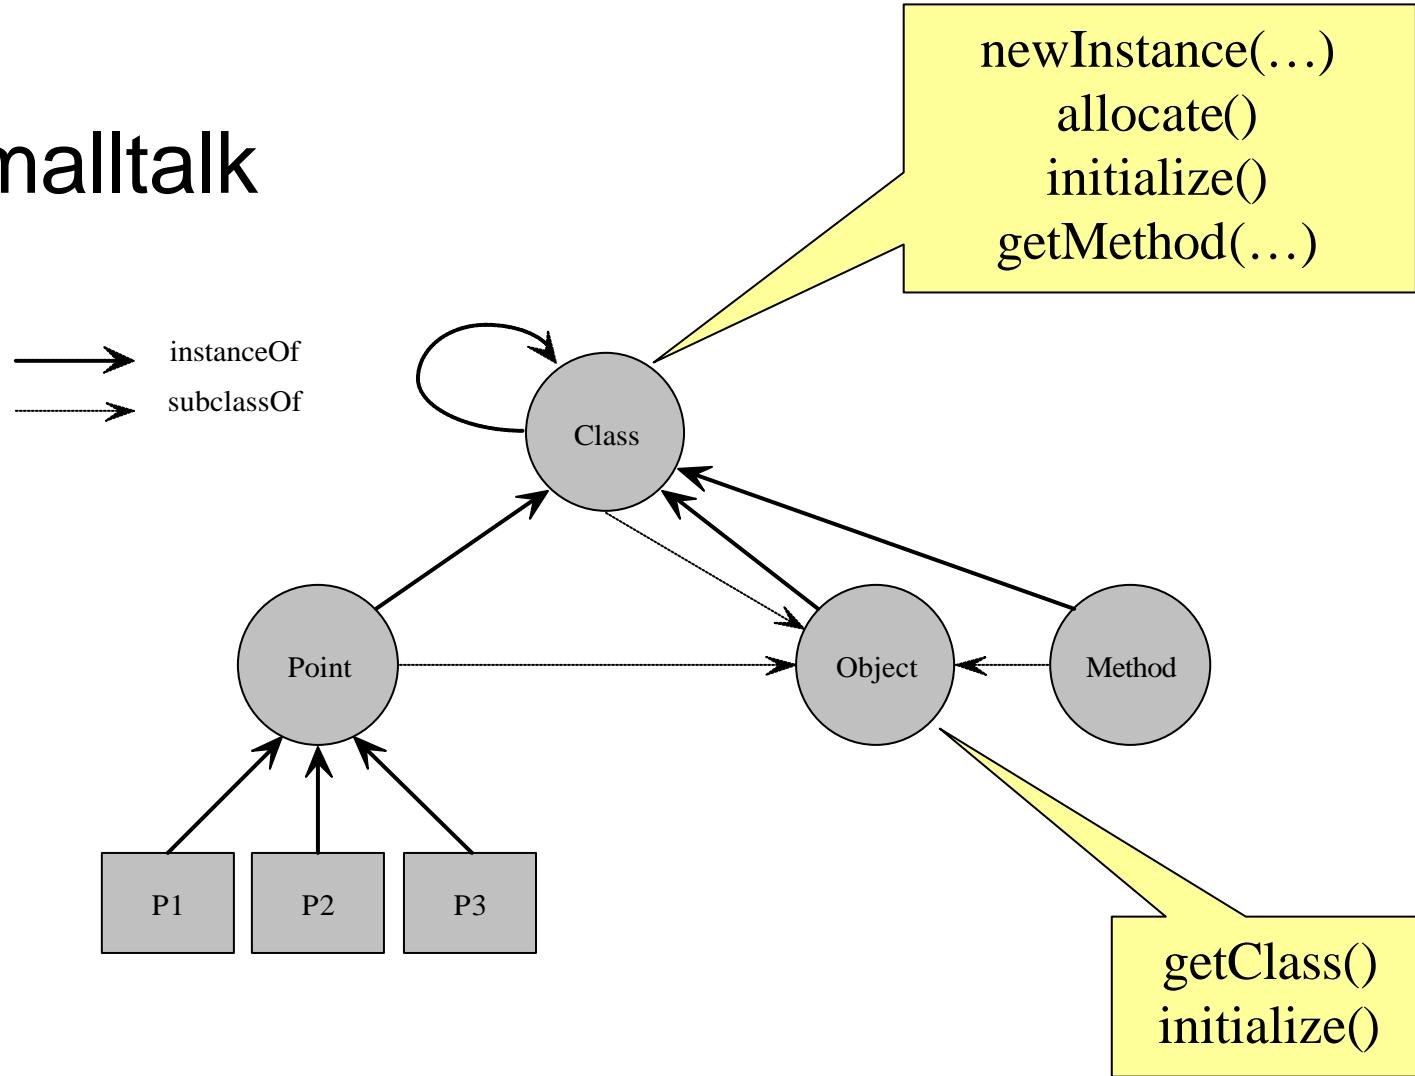

# Structural vs. Behavioural

Structural and behavioural  
reflection are strongly  
coupled!

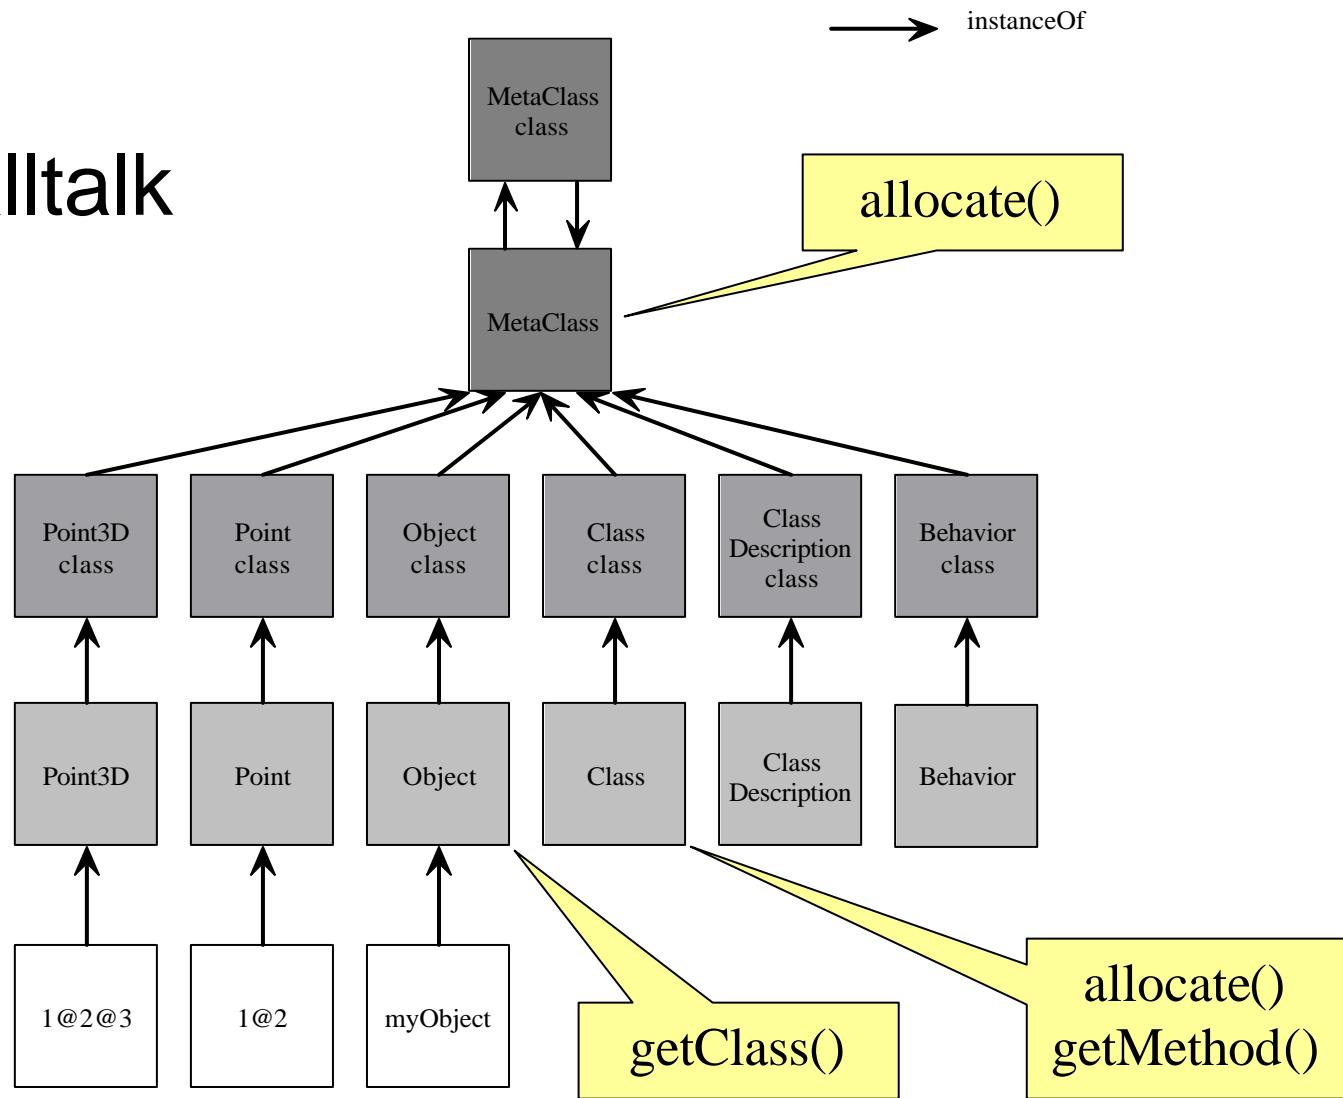

# Structural reflection

## ■ Smalltalk

# Structural reflection

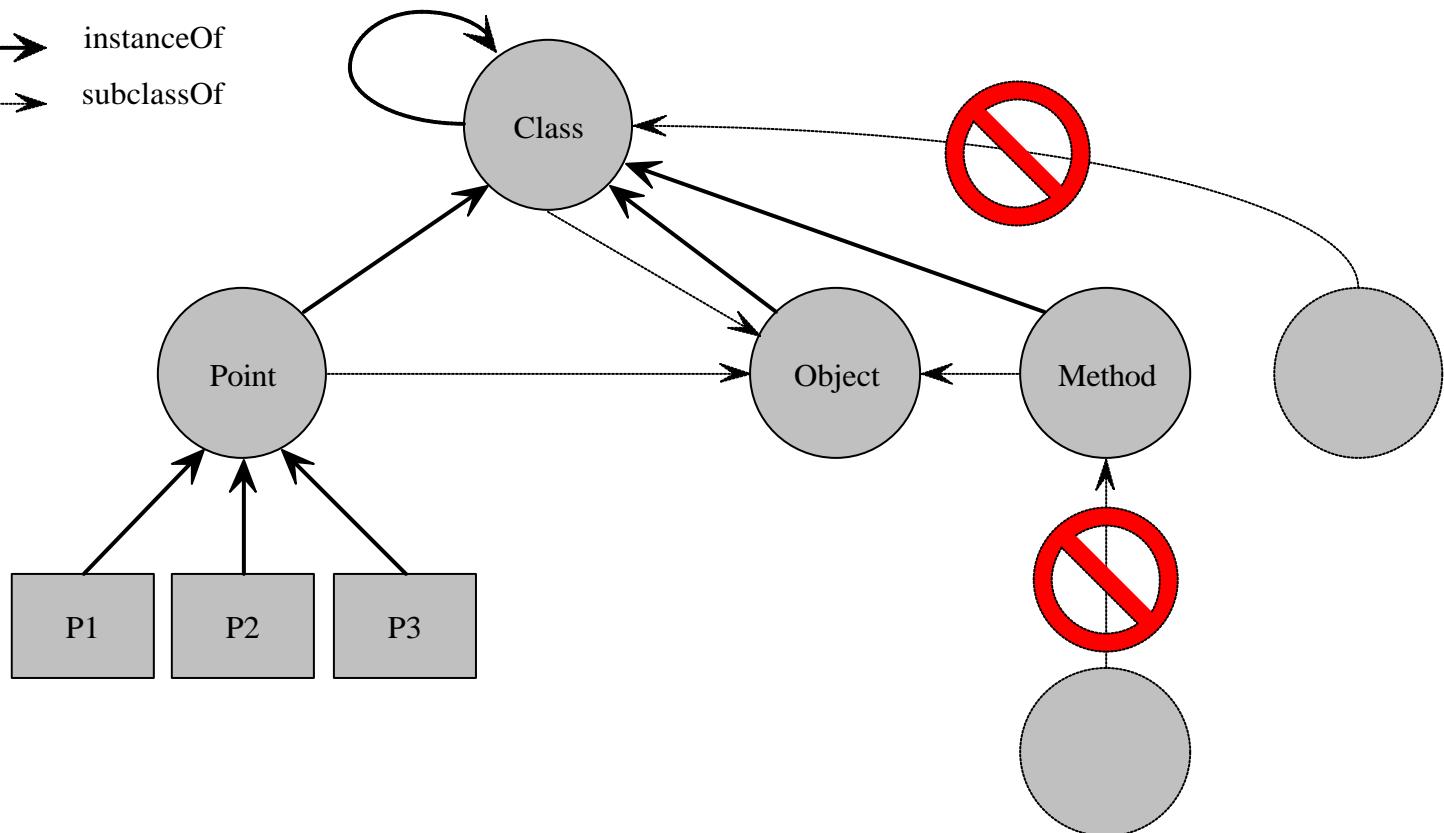

# Smalltalk

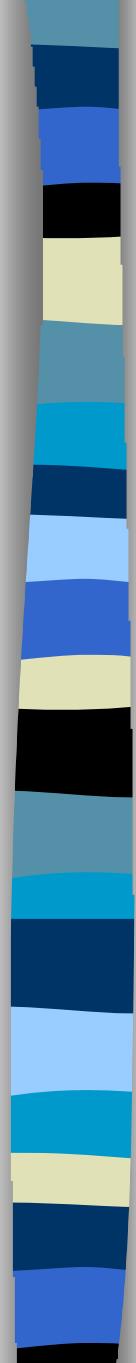

# Structural reflection

## ■ Java

→ instanceof  
→ subclassOf

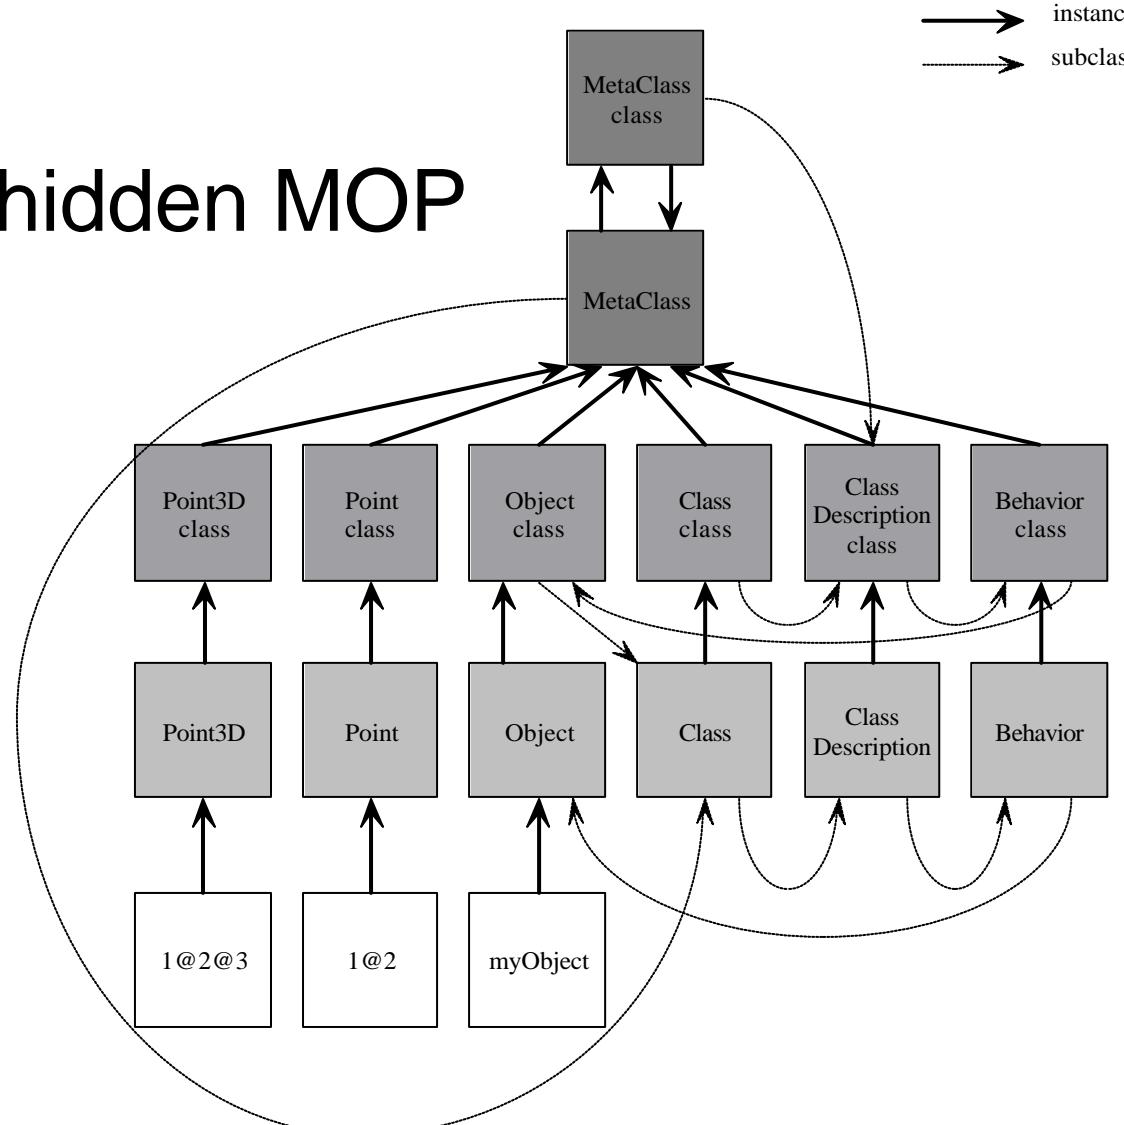

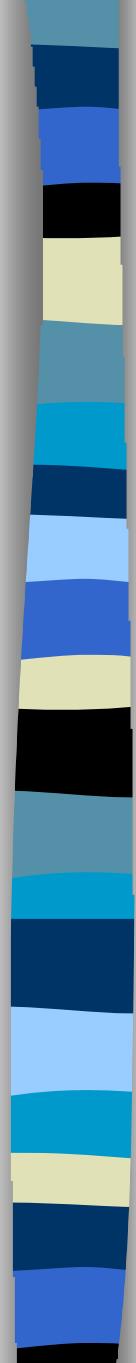

# Behavioural reflection

- Smalltalk
  - Meta-object
  - Meta-object protocol (MOP)

# Behavioural reflection

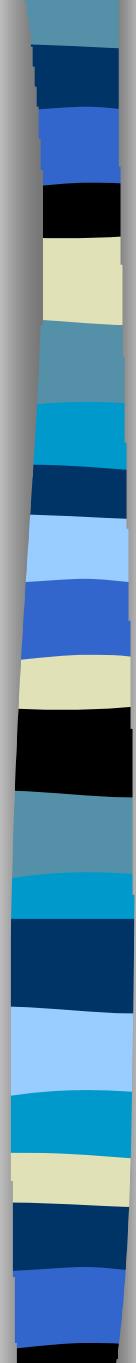

## ■ Smalltalk hidden MOP

# Behavioural reflection

- Java
  - New?
  - Message send?
  - Finalization?

# Behavioural reflection

- Java
  - ExtendedObject
  - ClassDescription
  - MetaObject
  - Proxy
  - Blocks
  - HotSwap

# ExtendedObject
